Research with iSupport

iSupport is an interactive carepackage for caregivers of people with dementia.

iSupport has been translated into Welsh for the first time therefore, we need people to help test it.

Who?

- Welsh speakers who help care for a member of the family, friend or neighbour who lives with dementia.
- Welsh speakers who work with people who live with dementia.

What will you be doing?

Offering feedback on *iSupport* using a short workbook.

£20 shopping token available.
